CHOLESTEROL NF

CHOLESTEROL NF

Cholesterol NF is a white, crystalline powder. It is made from wool grease by extraction and refining processes. Cholesterol NF is soluble in most common organic solvents and vegetable oils but insoluble in water.

Specification: Cholesterol (GC), $\geq 95\%$
Total sterol (GC), $\geq 99\%$
A-tocopherol, 50-350ppm (anti-oxidant)

•• **Structural formula:**

CAS no. 57-88-5

Application: Cholesterol NF is widely used as an emulsifying agent in cosmetic preparations. Cholesterol functions as an excellent moisturizer in skin conditioning cosmetics and is used as a raw material for the synthesis of vitamin D3 and liquid crystals.

Packing: Fibre drums containing 10, 25 or 50 kg net in plastic foil.

Storage: To avoid contamination keep the drums well closed.

Stability: Retest after 3 years, if stored at ambient temperature in original undamaged packing.

The information given in this product information bulletin is based on our current knowledge and experience. It does not relieve users or processors from carrying out their own precautions and tests. Any relevant rights and existing legislation and regulations must be observed.
